

ACTIVE PEACE WORLDWIDE

2022-03-01, Arnhem, The Netherlands, site: marjadejong.jouwweb.nl/worldpeace

With every heartbeat I knock on the hearts of every fellow human being, like a beautiful bell, ringing powerfully - in silence...

From heart to heart, from soul to soul, guiding angel to guiding angel, or directly through 'The Source of Light, Love and Life' (whatever name you give It from your own experience)...

LET ALL (WORLD)LEADERS AND EACH ONE OF US REALISE...

1. ☀️ that good leadership is serving, with love and respect for the Great Whole and every part of It: this way everyone will feel seen and heard (which we all need) and we ourselves as well can offer better leadership

2. ☀️ that the unrest of 'not having enough' will disappear like snow in the sun, as soon as we will share our abundance: then we will still have enough and we all will get what we need much sooner

3. ☀️ that every soul will glow when living the Golden Rule (do good, find favor), and that we can be more to others if we (first) take good care of ourselves

4. ☀️ that gratitude for all that we do have, or all that can be done, makes us hopeful, strong, inventive & creative, showing us how all that we do not have (done) yet, can come or be done in a different way

5. ☀️ that we are complementing one another perfectly since we all have strong and less strong sides; the more we accept ourselves, the more understanding we will find for others

6. ☀️ that we can ask freely for what we need, after all: receiving is the same as giving another person the space to give, and giving is only possible if someone gives the space to receive; seen this way giving and receiving are the same

7. ☀️ that there will be Light always: the sun will shine always (also behind the clouds or on the other side of the world), and the stars are best seen in the dark

8. ☀️ that we ourselves are Light, if we gratefully step into our power and use all our talents for the Great Good of All

9. ☀️ that really everyone is connected like brothers and sisters: so we can enjoy the happiness of another being, like a mother who becomes tender when her baby laughs or coos and gurgles with joy

10. ☀️ that our intention to actually apply these insights in our daily lives, is the first step towards peace within ourselves, peace around us, and peace worldwide

PEACE BE WITH YOU
